## Masonic Stamp Associations Around the World

Unlike other stamp collections the field of Masonic stamps is quite specialized and consequently there are relatively few stamp associations who study Masonic philately. Coupled with the fact that not all of the existing groups are listed on the Internet yet, which makes it hard to find them. The following are some of those groups that are known to me, if you are aware of other please let me know and I will include them in future newsletters.

### The United Kingdom

Brother Trevor Fray a member of St. John's Lodge #70 in Plymouth started the Masonic Philatelic Club in England in 1974. Their objectives are "*The furtherance of Masonic Research via the media of postage stamps, the dissemination of knowledge gained and the quiet enjoyment of this interesting hobby.*" The club began publishing a newsletter in 1976 and have continued to this day.

## Mystery Stamps Identified!

As a result of re-visiting the Masonic Philatelic Club website in the UK, I noted that they had added five new Masonic Stamps issued by General Nikolai Yudenich (1882-1953) commander of the Russian Caucasus Army in 1919 during the Bolshevik Revolution. (See them depicted on page 6.)

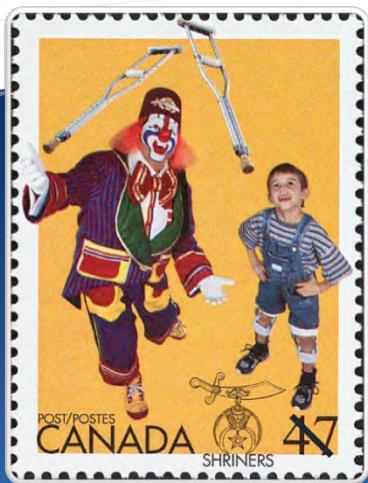

The five stamps depict Masonic symbols and according to the web site each asks the question “Are you a Mason?” The web site stated tat there appeared to be no catalogue references to these stamps. Being kind of guy who loves a mystery I conducted my own research and discovered the stamps listed in the Scott Catalogue under the listing of “Army of the North” in the back of the Russian section. Scott lists them as issued in September 1919 Nos. 1-5 (A1-A5) with the following notation: “*The letters OKCA are the initials of Russian words meaning “Special Corps, Army of the North,” The stamps were in use from about the end of September to the end of December 1919.*”

Surprisingly the stamps do not have a high catalogue value with the 2009 suggested price of .40 cents for mint and .70 for cancelled. Thank you to our friends in the UK for bringing these rare Masonic stamps to our attention.

### Our Mystery Stamp

Boy does this one stump us! It appears to be Greek and according to my Greek friend it reads “Grand Orient of Greece” with postal value of 25 Drachmas. Stamp dealer Abdul Aziz of Varanasi/Benares, India [raju2001@gmail.com](mailto:raju2001@gmail.com) owns this mystery stamp and it has stumped him too. We have searched high and low for any information about it and we can’t find anything. So if you can help us solve this mystery it would really be appreciated because it’s keeping me up at night!

### Canadian Stamp of the Month

Although Canada Post has never produced a truly Masonic stamp, they released a stamp in 2001 honouring the work of the Masonic fraternal organization known as the “Ancient Arabic Order of the Nobles of the Mystic Shrine” or simply the Shriners. Established in the USA in 1870 and known for their frivolity, red fez hats, little cars, clowns and parades has become famous for its charitable work for children in which they have established and fund 22 children’s hospitals throughout North America. All the medical service delivered at a Shrine Orthopedic or Burn unit hospital to any child up to the age of 18 is completely free. Ironically many of people who are critics of Freemasonry, praise the work of the Shrine are often are unaware of the fact that all Shriners are Freemasons!

Meetings for the sake of meeting can really drag a person down and when it comes to many Freemasons we have a tendency to be attending many meetings because so many of us belong to other organizations. Simply put Masons are great joiners. In trying to find a clear night for our stamp club I discovered that in the run of a month there were only two nights that didn't have a Masonic meeting happening. At least if your going to come to one of our meetings you can eat what ever you want and chat to your hearts content. Hopefully we'll see you at our next meeting. Bon Appetite!

## The Editors Rant:

Call my Kooky and slap me with a fish, but I just love the folks who really hate us Freemasons. These conspiracy seeking nut jobs never cease to amaze me how they are so convinced that in our spare time we are part of an ultra secret society that runs the world. Maybe I and every other Freemason I have met in 30 years are just too incompetent? I personally find it a challenge to live up to these Koo Koo's expectations, what with having to work for a living, raising families, paying mortgages and dealing with all the other challenges of trying to survive to have the time to run the world. But I really do love these folks because they are so entertaining. Take for example the brainiac that has posted on his blog a rant about how the only way a person could get invited onto the "Top Chef Masters" TV show was to be a Freemason. I quote: "*It seems one had to be a member of Freemasonry to get invited onto this program, with the possible exception of Mr. Bayless. You can view Masonic hand signals being employed by contestants throughout the program including the opening credits.*" I know this is newsletter about Masonic Stamp collecting but here is my point. The

*Can you identify these three men and what is their connection to Masonic Stamps? Their stories next in the next issue of the Watermark.*

fraternity has kept silent throughout its history and let people say whatever they want about this wonderful organization. But have you ever considered how many of the hundreds of thousands of good and decent men and their families could have been spared from persecution had we refuted the unrealistic, rhetoric that has been hurled at us by our critics?

It saddens me to know that Freemasons have been, persecuted, imprisoned and murdered simply because the belonged to a fraternity based on such dangerous principals such as Peace, Friendship, Religious Tolerance, Education for the masses and Charity.

My rant really does have a stamp connection, really it does. The connection is, that starting with this issue I am going to feature an "Anti-Masonic" stamp and introduce some of these monsters and whackos and tell you a little about them and their deeds. Besides if I have to be the writer, editor and publisher of this newsletter I may as well have some fun because truth is often stranger than fiction!

### **Area Resources**

The Ottawa area is blessed with a number of resources for both the Freemason and the stamp collector.

For the Freemason the Ottawa /Gatineau area has three Masonic districts comprised of 33 Lodges plus it has four Royal Arch Chapters, The Scottish Rite, two Shrine clubs, one Knight Templar, two Eastern Star Chapters and Demolay, Rainbow Girls and Jobbies for our youth.

For the collector there is Ian Kimerly's Stamp Studio, five stamp clubs, and an open stamp and coin show every month at the RA Center on Riverside Drive in Ottawa (our club member George McManus usually has a booth).

The first weekend in May of every year is the ORPEX (Ottawa Regional Philatelic Exhibition) one of Canada's largest stamp shows.

There are not many web sites that offer Masonic stamps but our friend in India, Abul Aziz has over 300 Masonic related stamps for sale from his web page at [http://stamps.delcampe.co.uk/page/list/cat\\_645.cats,,id\\_member,00031676,language,E.html](http://stamps.delcampe.co.uk/page/list/cat_645.cats,,id_member,00031676,language,E.html) and he has graciously offer a 20% discount to anyone who references "The Watermark" newsletter to him when they place their order!

## Anti-Mason of the Month

**General Francisco Franco (1892-1975)** was the military dictator and head of state that ruled from October 1936 to his death. This autocrat ruled by fear and suppression, utilizing a variety of iron fisted methods such as censorship, coercion, dissolving parliament, establishing concentration camps, forced labour camps, heavy prison sentences along with the death penalty.

Franco's persecution of freemasons began in 1936 following a military coup, which resulted in him becoming the military commander for the Nationalist Movement. Backed by the Catholic Church, which supported a crusade to liberate Spain from "the Judeo-Masonic-Communist conspiracy dubbed the "Contubernio" Under his leadership the slightest suspicion of being a mason was reason enough to be executed by a firing squad. By 16 December 1937, According to the annual Masonic assembly held in Madrid in 1937, all of masons that had not escaped from the areas under nationalist control had been murdered.

Franco's hatred of Freemasonry was deep seated and in 1938 he decreed that all Masonic symbols be erased from every grave marker in Spain and in 1939 he banned Freemasonry and made it a criminal offence to ever have belonged to the Craft.

In 1940 he issued a decree banning Freemasonry along with other so called secret societies claiming that Freemasonry was the cause of the fall of the Spanish Empire in the 19<sup>th</sup> century and the Spanish Civil War in the 20<sup>th</sup> century.

Included in his eight-article decree, article No 5 stated, "*From the date of this publication, mason and communists, as defined in No. 4 above, will be liable to be imprisoned with a "minor jail offense", of a minimum of 12 years and one day, but this situation could be aggravated by the "Aggravated Circumstances" as explained in Article No. 6.*"

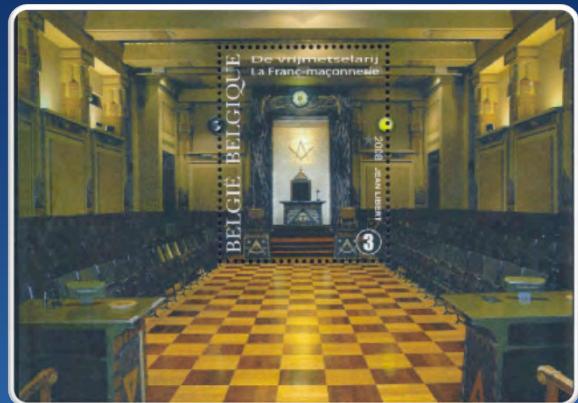

Article 6 defined aggravated circumstances to be any mason who had obtained the 18<sup>th</sup> to 33<sup>rd</sup> degree or have taken part in an annual communication committee of the Board of the Grand Orient of Spain. Those convicted of aggravated circumstances were usually executed.

Franco's hatred of Freemason continued throughout his life and there are several theories as to antipathy including having been refused initiation into the Moroccan Lodge his brother Ramond Franco belonged to and having been one of two Generals who refused to join the Military Lodge "Brotherly union" in 1925. Others have suggested that being a staunch Roman Catholic he simply believed in the existence of the "Contubernio". Franco spent most of his military career surrounded by right wing clergy who promoted the restoration of church authority in concert with a military led right wing crusade against the Contubernio.

*Continued on Page 6*

*Franco continued...*

By linking Freemasons to Communists, Franco was able to convince countries like Britain, France and the USA to stay out of Spanish affairs while at the same time gain the support of Germany and Italy. The fear of Communism resulted in the murder torture and imprisonment of untold numbers of men whose only crime was to be a member of the fraternity. After the death of Franco, Freemasons in Spain regained their rights and Masonry continues to exist but not without further challenges, but that is a tale for another time.

**Masonic Stamp of the Month**

Arguably one of nicest Masonic stamps to be released was this miniature sheet from Belgium. The stamp was released on May 19<sup>th</sup> 2008 to commemorate the 200<sup>th</sup> anniversary of the lodges "La Constance" and "Les Eleves de Themis"
